Grundfos UPS

3-Speed Technology
The Power of Flexibility

Cast Iron
UPS 15-58FC

Stainless Steel
UPS 43-100SF

Stainless Steel
UPS 15-55SUC/TLC

One of the main features of a UPS is its 3-speed motor. This unique motor advancement, pioneered by Grundfos more than 30 years ago, allows you the ability to adjust the pump speed to fit your specific application. Flexibility to choose your speed gives you the peace of mind that you have the correct pump for the job. The versatility of the UPS not only reduces the number of circulators you have in your truck, but also reduces your installation time and callbacks.

Features

- **Lower inventory – increased profitability**
- **Easy to install – easy to service**
- **Reliable starts – trouble-free performance**
- **Quiet – wet rotor technology**
- **Industry leading three-year warranty**

Building on Success

Due to the popularity of the UPS15-58, we designed six new models to expand the 3-speed circulator range. For most hydronic heating applications, the UPS15-58 is the only circulator you will ever need. But, since some situations require unique demands, additional models were designed to expand the UPS range. All the pumps contain the same features that made the original UPS such a sought-after alternative. Flexibility, ease of installation, and reduced inventory are the benefits that make the UPS team the new standard in circulators.

High-Head UPS	High Flow UPS	Additional Stainless Options
UPS 15-58 F/FC	UPS 43-44 FC/BFC	UPS 15-35 SFC/SUC/TLC
UPS 26-99 FC/SFC	UPS 43-100 F/SF	UPS 15-55 SFC/SUC
UPS 26-150 F/SF	UPS 50-60 F/SF

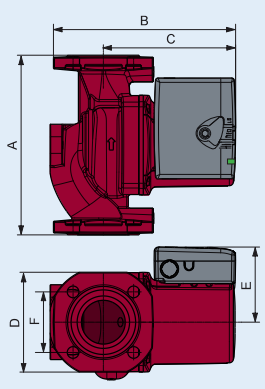
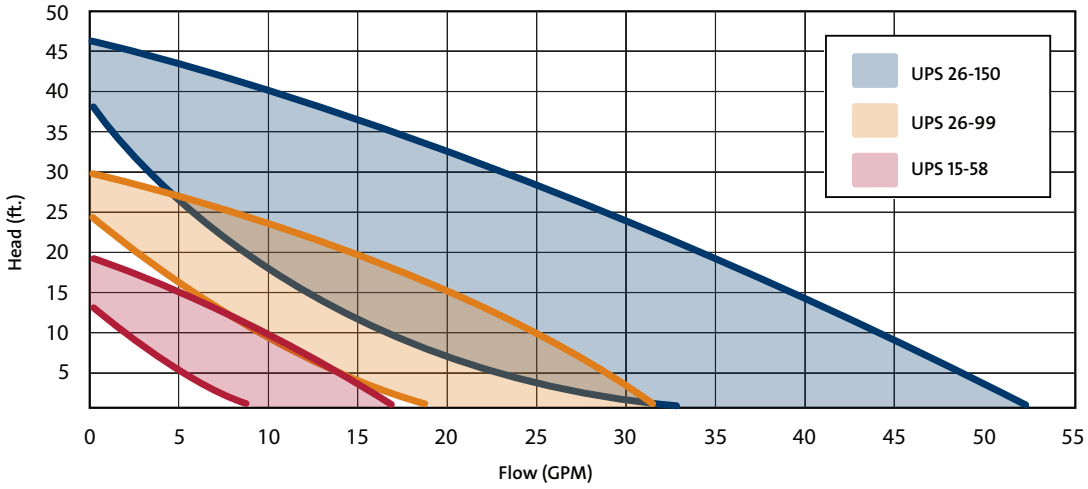
UPS 50-60

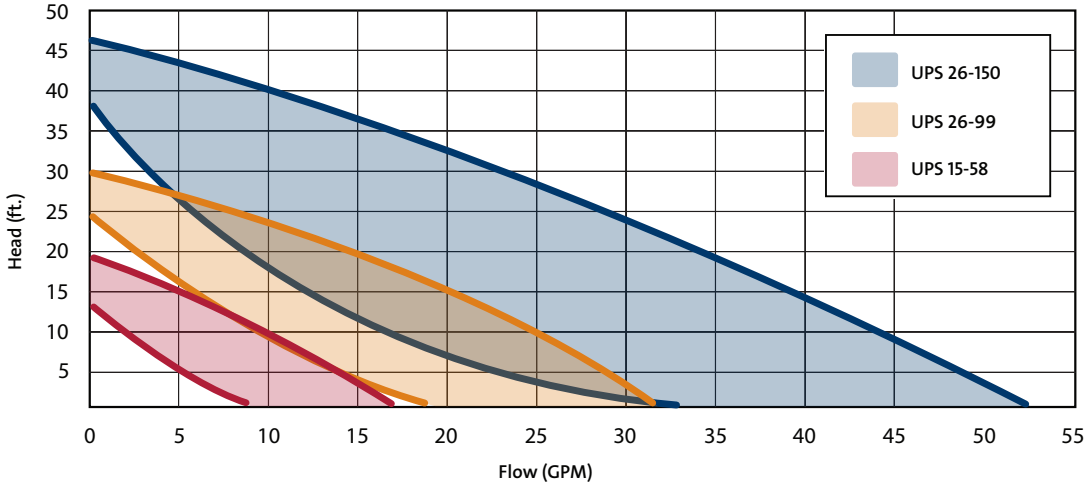


UPS 3-Speed Performance Curves – 60 Hz

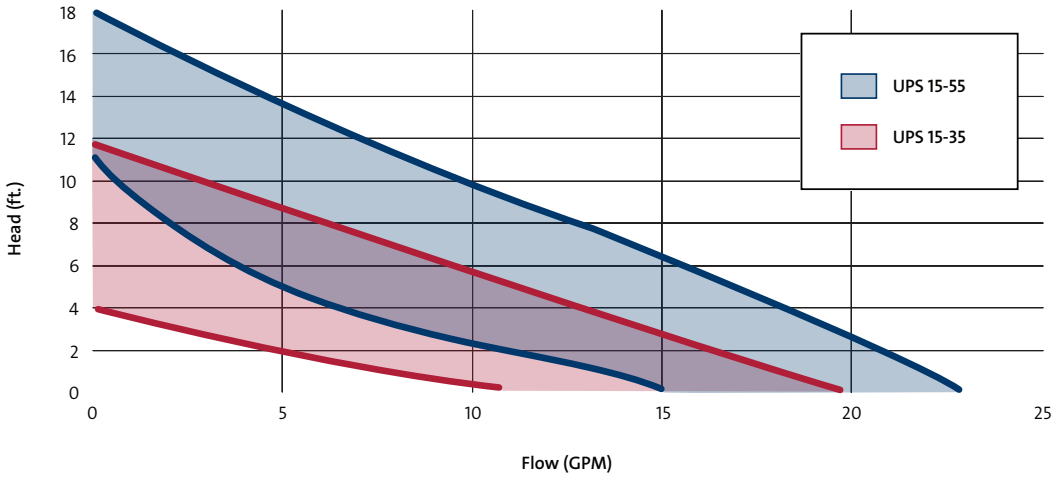
High Head Curves



High Flow Curves



Additional Stainless Steel Curves



UPS – Lower Inventory for Increased Profitability

Easy installation

- Quick connect terminals for easy installation

Reliable starts

- Patented electronic starting unit provides the highest starting torque of any circulators in its class (UPS15-58 only)
- Ceramic bearings ensure years of quiet, trouble-free operation

- 8 hydraulic models replace 130 competitor pumps
- UPS's offer a 3-speed switch for extreme flexibility
- Fast installation time for a higher profit margin

- Nut capture feature (except UPS 15-58FC)

- Green LED Power indicator light
  (UPS 43-100, UPS 26-150, and UPS 50-60 models only)

- Removable check valve eliminates need for an in-line flow check
  (UPS 15-35, 55, 58, UPS 26-99, UPS 43-44 models only)
